PROFESSIONAL SUMMARY

Full-Stack Engineer with 4+ years of experience building and shipping production-grade web applications, with a focus on backend development in Laravel. Specialized in multi-tenant SaaS architecture (schema-per-tenant, database-per-tenant, and row-level isolation) and comfortable owning entire product lifecycles independently, from architecture to production deployment. Recent work spans real-time systems, delivering for government, enterprise, and SaaS clients.

PROFESSIONAL EXPERIENCE

SummerHill Technologies, Software Engineer Oct 2024 – Present

- Architected and delivered 7 **production web applications**, including 3 **multi-tenant SaaS platforms** using schema-per-tenant, database-per-tenant, and row-level isolation models.
- Developed the **HP Bar Council Digital Enrollment System**, digitizing the lawyer registration lifecycle with online applications, document management, Billdesk payment integration, and AWS S3-based storage.
- Built **LinkAbode**, a residential facility management SaaS platform using Laravel 11, FilamentPHP, and Livewire, supporting amenity bookings, service requests, resident communication, and kiosk-based access.
- Currently building a **real-time telephony dialer** for BPO operations in Laravel, integrating Asterisk (containerized with Docker) for inbound and outbound call handling, with three-way conferencing implemented.
- Developed a QR-code-based **Asset Management SaaS** using Next.js, React, TypeScript, Prisma, and PostgreSQL, with custom field schemas, CSV import/export, audit trails, and asset lifecycle tracking.
- Contributed to the **Holistart Workforce Onboarding Platform**, automating manpower requisition approvals, employee provisioning, and enterprise onboarding workflows.
- Maintained and enhanced legacy CakePHP and Laravel systems, supporting business-critical internal operations with minimal disruption.

Freelance, Web developer 2021 – 2024 | Shimla

- Built a Laravel-based **Project Management System** for Cinesamugam, including real-time task dashboards for **60+ employees**, reducing project delays by **30%** and improving team productivity by **20%**.
- Designed and developed a responsive landing page for InfraUp, aligning the website with the client’s brand identity and increasing client engagement by **15%**.

Himtech, Junior Developer 2020 – 2021 | Shimla

- Contributed to the development of a home-services marketplace platform using Django, Python, HTML, CSS, and JavaScript.
- Built backend modules, responsive frontend pages, and core user-facing features from scratch.
- Collaborated on requirement implementation, debugging, and iterative improvements across the application lifecycle.

SKILLS

Languages — PHP, JavaScript, TypeScript, Python

Backend — Laravel, Django, REST APIs, MVC Architecture, Queues & Background Jobs (Redis), Eloquent, Policies/Gates

Frontend — React, Next.js, Livewire, Alpine.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases — MySQL, PostgreSQL, MongoDB, Prisma

Architecture — Multi-Tenant SaaS, Schema-per-Tenant, Database-per-Tenant, Row-Level Isolation

API & Integrations — WebSockets, Stripe, Billdesk, Twilio, REST

DevOps & Cloud — AWS S3, Vercel, CI/CD, Git, GitHub

EDUCATION

Green Hills Engineering College, Bachelor of Technology in Information Technology Solan

CERTIFICATIONS AND TRAINING

Python Programming Course, DOEACC Society (NIELIT, Shimla)

Web Application Development, Shri Technologies (Solan)
